

MAY GARDEN CRAFT

From Farming's Future

Supplies:

Decorated paper
Glue
Hole punch
Ribbon
Paper towel
Plastic bag
Fresh flowers

Roll a piece of pretty paper into a cone shape, and glue the edges together to seal it. When the glue has dried, punch two holes on opposite sides of the cone.

Tie the ends of a piece of ribbon through each of the holes to make a handle. Gather some fresh flowers. Put a wet paper towel around the flower stems and cover the towel with a plastic bag.

Tie ribbon around the plastic bag to seal it, and set the flowers inside the decorative cone. Hang the cone on a family member's bedroom doorknob or on the front door of a neighborhood friend.
